Full Stack developer enthusiast seeking for an opportunity to achieve professional growth, working with dedication, determination and being a contributing member for the growth of the organization and myself.

EXPERIENCE

February 2022 – December 2023
Infosys
Senior Systems Associate
Client-Goldman Sachs

1. **Automation for Health Monitoring:** Leveraged a suite of tools including Graphana, KeepAlive, Autosys among others to analyse failure to ensure prompt notification of discrepancies in production health, enabling continuous risk and cost measurement.
2. **Performance Enhancement & SLA Compliance:** Enhanced application stability by keenly observing patterns and recurring issues, offering impactful permanent fixes to maintain SLAs and bolster application reliability.
3. **Application Issue Resolution:** Through meticulous analysis resolved defects and setbacks to improve overall performance.
4. **Incident Management and Reporting:** Managed incidents effectively, leveraging log and database data to develop detailed reports. These reports provide crucial trending statistics
